PROFILE

Final-year Information Technology student with hands-on experience in Java, MySQL, JavaScript, HTML, CSS, and React.js through internships and academic projects. Experienced in developing responsive frontend interfaces, reusable React components, and API-integrated web applications. Familiar with OOP concepts, Python, Machine Learning fundamentals, and AWS cloud services. Seeking an entry-level software development role to apply programming and frontend development skills.

EDUCATION

B.Tech in Information Technology (Final Year) 2023 – 2027 | Salem , India

AVS Engineering College

CGPA: 8.55/10 (Maintained through 5th Semester)

Secondary Education (10th Grade) 2020

Government Higher Secondary School

Higher Secondary Education (12th Grade) 2022

Government Higher Secondary School

SKILLS

Programming Languages/Core Concepts

- Java
- JavaScript
- Python(Basics)
- OOPS

Database

- MySQL

Cloud

- AWS S3
- AWS VPC

Frontend

- HTML
- CSS
- React

Machine Learning & Data Analysis

- Pandas
- Numpy
- Matplotlib

PROFESSIONAL EXPERIENCE

Associate Software Developer Intern March 2026 – June 2026 | Remote

Krishnova LLP

- Developed responsive frontend interfaces using React.js, HTML, CSS, and JavaScript.
- Built reusable React components and managed UI state for web applications.
- Integrated frontend applications with REST APIs for dynamic data handling.
- Debugged UI issues and improved application responsiveness and performance.

Python & Machine Learning Intern

ADVI Group of Companies

June 2025 – July 2025
Salem, Tamil Nadu, India

- Learned Python programming fundamentals through practical exercises.
- Gained introductory exposure to NVIDIA boards and Raspberry Pi.
- Learned basic Machine Learning concepts and workflows.
- Worked with NumPy, Pandas, Matplotlib for basic data analysis and visualization.

Cloud Computing Intern – AWS S3 & Virtual Private Cloud

Livewire Salem

February 2025 – March 2025
Salem, Tamil Nadu, India

- Gained hands-on experience with AWS cloud services.
- Worked with Amazon S3 for cloud storage solutions.
- Learned Virtual Private Cloud (VPC) and cloud networking basics.

PROJECTS

WanderTamil – Tourism Web App | React.js, Vite, Tailwind CSS, Gemini API

- Developed a responsive tourism web application using React.js and Tailwind CSS.
- Implemented destination discovery, search, filtering, and role-based user features.
- Integrated Gemini API to provide AI-powered trip planning based on user requirements.

Tomato – Food Delivery Web App| React.js, Context API, CSS

- Developed a responsive food delivery web application using React.js.
- Implemented cart and checkout state management using Context API.
- Added dynamic item quantity and total price calculations with responsive layouts.

SMS Spam Detection | Python, Flask, Scikit-learn, TF-IDF

- Developed a machine learning application to classify SMS messages as spam or legitimate.
- Used TF-IDF for text feature extraction and SVM for classification.
- Built a Flask-based interface for real-time message prediction.

Currency Converter | HTML, CSS, JavaScript, Exchange Rate API

- Developed a responsive currency converter using HTML, CSS, and JavaScript.
- Integrated an exchange-rate API to retrieve and display currency conversion rates.
- Implemented currency swapping and dynamic conversion functionality.

ACHIEVEMENTS

Smart India Hackathon (SIH)

Participated in a national-level hackathon, collaborating on problem-solving, prototype development, and project presentation.

HackIndia 2026

- Qualified for Round 2 as part of Team Dynamite.
- Collaborated on project development and technical presentation.

CERTIFICATIONS

- (Statistics for Data Science — Infosys SpringBoard, 2026)
- (Data Analysis with Python — Infosys SpringBoard, 2026)
- (Oracle Cloud Infrastructure 2025 Certified Foundations Associate — Oracle University, 2025)
- (Machine Learning Virtual Internship — CodSoft, 2025)
- (Storage in Virtual Private Cloud using Amazon S3 — Livewire, Salem, 2025)
- (Deployment of CUDA Python on NVIDIA Boards — ADVI Group of Companies, 2025)
